Uma Bhavan Community Management System

Client Requirements Summary

Uma Bhavan • Anand, Gujarat • 388001

Purpose

An online single-Samaj community management system covering firms, families, members, areas, surnames, Niyari, receipts, collections, reports, imports/exports, backup/restore and audit history.

Confirmed Technology

Layer	Decision
Frontend	React + Vite + TypeScript + Tailwind CSS
Backend	Node.js + Express.js + TypeScript
Database	MySQL
ORM	Prisma
API	REST
Architecture	Modular monolith
Current role	Super Admin
Environments	Local / Staging / Production

Key Business Rules

Permanent families use M001, M002…; Nominal families use N001, N002…. A family cannot mix types. Age is calculated from DOB. Male members aged 18+ contribute to the 18+ male count. Receipt eligibility is 18–45 for Yuvak Mandal + Samaj and 46+ for Samaj only.

Reporting & Printing

Firm, Member/Family, Surname, Niyari and Receipt outputs are printable. Reports support Excel, PDF and print. Receipts are A4 and include Samaj branding, member details, amount, signature/stamp and an information-encoded QR code.

Data Operations

Excel import uses validation, preview, explicit confirmation and error reporting. Manual encrypted backup/download and Super Admin-only restore are required. A safety backup is created before restore.

Open Decisions

Final Family ID behavior during migration; final receipt visual layout after logo delivery; email provider; audit retention period; production hosting budget for MySQL; and final firm-to-family cardinality confirmation.
